

## GADJO DILO in concert, at Cine Studio

After their **summer tour** in Germany, Cyprus and the Balkans, Gadjo Dilo return in Crete to present the music style they themselves created, the so-called **Manouche De Grec**.

Gadjo Dilo combine the music traditions of **gypsy jazz**, inspired by the legendary guitarist of gypsyswing **Django Reinhardt**, with loved **Greek songs** mainly from the music scene of the 50's and 60's. Using these two musical cultures as a "basecamp", the group that experiments with the sounds of jazz comes the stage of **Cine Studio**, to present a program with a strong "Greek" component but with references to **American jazz standards** and French songs the interwar period.

On **Friday, November 27** the magic of Manouche De Grec will take us to another era, making us dance and sing along.
